

LIFT efficiency

Nissan's new AC powered 3-wheel TX Series keeps materials moving. That's because it's based on the innovative Nissan AC TECH controller technology. Thanks to the wet type brakes and long, 1200 hours maintenance intervals, service is kept to a minimum. And the unique Risk Reduction System ensures operator safety

at all times. But there's more. The Nissan TX comes in 7 models ranging from 1.25 to 2.0 tonnes. So it's suitable for a wide variety of industrial and warehouse applications. The result? Reduced maintenance, superb performance and maximum economy.

Want it moved? The new TX series keeps moving.
